

SAINT JOHN METRO

EASTERN CANADA'S GATEWAY TO NEW ENGLAND AND WESTERN EUROPE

Saint John, New Brunswick is a stable data center market with strong mid-market demand. Through SJ1, customers can access the U.S. through New England for wholesale and disaster recovery opportunities.

The site's expansion capacity is expected to support growing trans-Atlantic and U.S. Eastern seaboard demand, making it uniquely attractive to Western Europe customers seeking a North American presence. Additionally, an established competitive dynamic has stabilized pricing in the market. The data center is also ideal for retail and virtual data center services.

Saint John Metro Facilities

The Equinix SJ1 Saint John International Business Exchange™ (IBX®) data center is a single-story, white concrete building offering 3,320 square feet (309 square meters) of rentable colocation space.
